Support:

The WATCH FOR ICE ON BRIDGES (W8-Y8) sign provides a general warning to motorists that under certain conditions, ice may form on bridge floors before it forms on the adjacent roadway.

Guidance:

The WATCH FOR ICE ON BRIDGES sign should be placed such that motorists' association of the sign to a specific bridge is minimized.

Option:

An additional sign may be used in advance of a specific bridge where engineering investigation and icing related accident history indicates an extraordinary icing condition may exist, as compared to other bridges along the roadway.
